As popu ost Light
and Boo features
and affordable price tag

As an alternative to the popular Boost+, the Boost Light features a single motor with 80kg lifting capacity and 25mm per second height adjustment. Available as a straight, open desk, with cable tray and privacy screen options.

The Boost Static is a fixed-height workstation which perfectly complements the Boost+ range. Available in single, back to back, and corner workstations, the Boost Static is designed to meet your daily needs by combining functionality, durability, and a sleek aesthetic.

Backed by a 10 year warranty across both ranges

HALO STATIC
WORKSTATION RANGES

Designed for the modern professional, the Halo Static Workstation range is a refined solution for a productive workspace.

Its E0-rated tabletop provides a sturdy surface, while the rigid edging and a discreet 50mm scallop cutout make cable management effortless, ensuring your desk remains clean and organised. The sleek, minimalist underframe, available in Black Satin or White Satin powdercoat, adds a touch of sophistication to any room.

You can further customise your setup with optional features like a fully ducted cable tray or an upholstered privacy screen, creating a truly personalised environment.

Available in single, back to back, and corner variants.

Backed by a 10 year warranty across the range
